

Monthly Indicators

July 2019

In July, the U.S. economic expansion that began in June 2009 became the longest in the nation's history, marking 121 straight months of gross domestic product growth and surpassing the 120-month expansion from 1991 to 2001. The average rate of growth during this expansion has been a milder 2.3 percent per year compared to 3.6 percent during the 1990s. Although the economy should continue to perform well for the rest of 2019, most economists see a mild recession on the horizon.

New Listings were down 40.6 percent for single family homes and 17.3 percent for Condo/TIC/Coop properties. Pending Sales increased 7.9 percent for single family homes but decreased 19.0 percent for Condo/TIC/Coop properties.

The Median Sales Price was down 1.6 percent to \$1,600,000 for single family homes but increased 6.5 percent to \$1,225,000 for Condo/TIC/Coop properties. Months Supply of Inventory decreased 25.0 percent for single family units and 15.4 percent for Condo/TIC/Coop units.

During the record-setting 121-month economic expansion, the unemployment rate has dropped from 10.0 percent in 2009 to 3.7 percent, yet many consumers continue to struggle financially. Low mortgage interest rates have helped offset low housing affordability, but high home prices are outpacing median household income growth. In a move to stoke continued economic prosperity, the Federal Reserve reduced the benchmark interest rate by a quarter point to about 2.25 percent, marking the first reduction in more than a decade.

Housing Affordability Ratio

This index measures housing affordability for the region. For example, an index of 120 means the median household income is 120% of what is necessary to qualify for the median-priced home under prevailing interest rates. A higher number means greater affordability.

July

Year to Date

Affordability Ratio	Single Family	Year-Over-Year Change	Condo/TIC/Coop	Year-Over-Year Change
